PROFESSIONAL SUMMARY

Dedicated AI/ML & Data Scientist with hands-on experience in building intelligent applications and web platforms using modern frameworks and backend technologies. Skilled in integrating Generative AI and data-driven models to solve practical workflow problems. Backed by specialized training from IBM. Seeking roles to leverage my expertise in scalable architectures, predictive analytics, and machine learning systems.

EDUCATION

Jagannath University

B.Tech in Computer Science

Jaipur, India

Jul 2023 – Expected Jul 2027

Coursework: Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems, Object-Oriented Programming (OOP), Artificial Intelligence.

TECHNICAL SKILLS

- **Languages:** Python with DSA, C++, SQL, JavaScript, HTML/CSS
- **Technologies & AI:** React.js, FastAPI, AI/ML, Generative AI, Deep Learning, Google Gemini API
- **Tools & Libraries:** Git, GitHub, VS Code, OpenCV, MediaPipe, TensorFlow Lite

EXPERIENCE & INTERNSHIPS

IBM SkillsBuild & Edunet Foundation

4-Week AI & Emerging Technologies Internship

Remote

2026 | [Certificate](#)

- Completed an intensive 4-week training program focused on Artificial Intelligence and core emerging technologies.
- Developed foundational AI models and gained hands-on exposure to industry-standard tech workflows.

IBM SkillsBuild & AICTE

6-Week Advanced AI Virtual Internship

Remote

2026 | [Certificate](#)

- Engaged in a 6-week advanced virtual internship deploying AI-driven solutions for real-world tech challenges.
- Engineered scalable machine learning workflows and integrated data-driven approaches into practical applications.

PROJECTS

Stylio

AI-Based E-Commerce Shopping Website

[Live](#)

- Engineered a responsive, full-stack e-commerce platform integrating AI capabilities for personalized product recommendations and enhanced shopping experiences.
- Developed robust backend architectures using modern web technologies to handle seamless user authentication, secure product management, and checkout flows.
- Implemented dynamic state management for real-time cart operations, inventory tracking, and seamless data synchronization.
- Integrated advanced search and intelligent filtering mechanisms to improve product discoverability based on user preferences.
- Optimized frontend interfaces for low-latency performance and deployed the application via Vercel with automated CI/CD pipelines.
